# IPPS★A

**INTEGRATED PERSONNEL AND PAY SYSTEM - ARMY**

*The Integrated Personnel and Pay System - Army (IPPS-A) Team* is actively seeking *Army Officers and NCOs* for immediate assignment consideration within IPPS-A's Functional Management Division (FMD), located in Arlington, VA.

*The IPPS-A program is at a critical point* as the Army moves beyond its current IT infrastructure to a more modern enterprise data warehouse (EDW) that allows Army leaders to analyze data in real time. By joining the IPPS-A team, you will help ensure maximum system availability and performance across the Army.

*Your role will include:* Serving as a liaison between the Business Technology (BT) and Analytics teams to represent all aspects of Data Management and Data Governance; Researching and developing relevant data and software solutions to be implemented within IPPS-A and integrated with other Authoritative Data Sources (ADS) across the Army in a secure manner; Leading and coaching the Data Development teams based on your functional and technical expertise; Assisting with the development and implementation of comprehensive enterprise data strategies, including data modeling, implementation and data management for EDW, and Business Analytics (BI); Working with cross-functional teams to ensure end-to-end technical and business viability; Providing leadership in establishing operational and analytic environments; and, Reverse engineering existing data flows and sources to target mappings.

*Best Qualified Applicants will have any of the following degrees:* Computer Engineering, Computer Science, Systems Analysis, Management Information Systems (MIS), Computer Information Systems (CIS), Information or Network Security, Math and Statistics, Economics, or Engineering.

*AND/OR*
*Experience in any of the following areas:*
- Use of Enterprise Resource Planning (ERP) Systems (e.g., SAP, PeopleSoft, CRM, PLM, SRM)
- Data Warehousing and Business Intelligence (e.g., OBIEE, OBI Studio, OBIA Data Warehouse)
- Database expertise, programming, and various Software and Data Organization tools (e.g., PL/SQL/CSS/Java/Visual Basic, Erwin, Data Architect, SDLC, XML, HTML)

*AND/OR*
*Professional Certifications such as:*
- Microsoft Certified Solutions Associate (MCSA) or Certified Solutions Expert (MCSE)
- ORACLE database 11g/12c Administrator Certified Associate
- SAS Certified Predictive Modeler, Statistical Business Analyst, or Certified BI Content Developer
- Security+ or CISSP

If interested, please send an email directly to COL Greg Johnson, IPPS-A FMD Chief, at gregory.s.johnson80.mil@mail.mil, SGM Chad Shine at chad.f.shine.mil@mail.mil, and LTC Rebecca Eggers at rebecca.l.eggers.mil@mail.mil. The email will include a summary of your education, skills and experience, your Record Brief, and an overview of why you want to join our team.
